Ben: New leaders were elected on 5-17-2014 during our annual stock holder meeting. Bruce Alder is the new president whom you met on the two trips up here inspecting our ditch.

During the meeting it was decided the flume/weir needed to be moved up stream due to possible high water from damming of pipes where the streams separate. There was discussion of flume vs. weir and the weir seemed to be the choice with some reservation to be price and benefits of each reviewed.

Please contact Bruce on any further correspondence. I believe Bruce will lead to get this completed.

  
Sincerely Roger Jorgenson
